

School Improvement Plan Summary

Wynn Vale School

Goals	Targets	Challenge of Practice	Success Criteria
Increase the number of high achieving students in Numeracy.	<p>2022: 11 Year 3 children will achieve a PAT-M scale score of 123 + 22 Year 4 children will achieve a PAT-M scale score of 128 + 10 Year 5 children will achieve a PAT-M scale score of 132.5 + 13 Year 6 children will achieve a PAT-M scale score of 137 +</p> <p>2023: 11 Year 4 children will achieve a PAT-M scale score of 128 + 22 Year 5 children will achieve a PAT-M scale score of 132.5 + 10 Year 6 children will achieve a PAT-M scale score of 137 +</p> <p>2024: 11 children will achieve a PAT-M scale score of 132.5 + 22 children will achieve a PAT-M scale score of 137 +</p>	If we explicitly teach reasoning and problem solving strategies, then we will increase the number of high achieving students in Numeracy.	<p>Students will select appropriate strategies, including the use of manipulatives and visuals, when problem solving. Evidence will be in student observations, student bookwork and reasoning responses.</p> <p>Students will identify which mathematical operation is required to solve multi-step problems. Evidence will be in student answers, reasoning responses and bookwork.</p> <p>Students will explain and justify their thoughts and processes. Evidence will be in student answers, reasoning responses and bookwork.</p> <p>Students will apply specific mathematical vocabulary and terminology when engaging in student conferences.</p>
Increase the number of high achieving students in literacy	<p>2022: 13 Year 3 Children will achieve a PAT-R scale score of 123 + 24 Year 4 Children will achieve a PAT-R scale score of 131 + 20 Year 5 Children will achieve a PAT-R scale score of 135 + 18 Year 6 Children will achieve a PAT-R scale score of 139 +</p> <p>2023: 13 Year 4 Children will achieve a PAT-R scale score of 131 + 24 Year 5 Children will achieve a PAT-R scale score of 135 + 20 Year 6 children will achieve a PAT-R scale score of 139 +</p> <p>2024: 13 children will achieve a PAT-R scale score of 135 + 24 children will achieve a PAT-R scale score of 139 +</p>	If we explicitly teach the connection between Guided Reading and Writing across multi-curriculum disciplines, then we will increase the number of high achieving students in literacy.	<p>We will see each student's deep connections to reading and writing when we review student reading response and writing samples.</p> <p>We will see students transferring knowledge of a variety of text types across curriculum areas, when moderating student learning samples.</p>
